

## **Kansas Assessments**

Included in this section is information from KSDE regarding criteria for KAMM and Alternate Assessment eligibility as well as a decision-making flow chart. Please use these tools in the IEP meeting to determine the appropriate assessment for each individual student. Determination of eligibility for the KAMM and the Alternate Assessment **must** be determined using these criteria.

The decision for a student to participate in the Alternate Assessment may **NOT** result primarily from:

- Specific categorical label
- Social, cultural or economic difference
- Amount of time receiving special education services
- Excessive or extended absence
- Achievement significantly lower than peers
