

## **Resolving Differences**

If a parent has concerns on services or other issues please notify the Director of Special Education as soon as you become aware of it. MAR-NEM COOP desires to be pro-active to resolve concerns.

## **Class Size and Caseloads**

The Director of Special Education will annually review, assess, and determine class size and caseloads for school-based special education staff members in order to insure that students with exceptionalities receive a free appropriate public education and to meet the individualized needs of all such students.
